Bureau Veritas North America, Inc. (BVNA) was engaged to conduct an independent verification of the greenhouse gas (GHG) emissions reported by Broadcom Corporation (Broadcom) for the period stated below. This Verification Statement applies to the related information included within the scope of work described below.

The determination of the GHG emissions is the sole responsibility of Broadcom. BVNA’s sole responsibility was to provide independent verification on the accuracy of the GHG emissions reported, and on the underlying systems and processes used to collect, analyze and review the information.

Boundaries of the reporting company GHG emissions covered by the verification:
- Operational Control
- Worldwide

Emissions data verified:
- **Scope 1**: 3,546 metric tons of CO$_2$e
  
  Data and information supporting the Scope 1 GHG emissions assertion were historical in nature.

Period covered by GHG emissions verification:
- January 1, 2013 to December 31, 2013

GHG Reporting Protocols against which verification was conducted:
- World Resources Institute (WRI)/World Business Council for Sustainable Development (WBCSD)
  Greenhouse Gas Protocol

GHG Verification Protocols used to conduct the verification:
- ISO 14064-3: Greenhouse gases -- Part 3: Specification with guidance for the validation and verification of greenhouse gas assertions

Level of Assurance and Qualifications:
- Limited
- Qualifications: None

GHG Verification Methodology:
- Interviews with relevant personnel of Broadcom and their consultant;
- Review of documentary evidence produced by Broadcom and their consultant;
- Review of Broadcom data and information systems and methodology for collection, aggregation, analysis and review of information used to determine GHG emissions; and
- Audit of sample of data used by Broadcom to determine GHG emissions.
Assurance Opinion:

Based on the process and procedures conducted, there is no evidence that the Scope 1 GHG emissions assertion shown above:

- is not a fair representation of the GHG emissions data and information; and
- has not been prepared in accordance with the WRI/WBCSD GHG Protocol Corporate Accounting and Reporting Standard.

It is our opinion that Broadcom has established appropriate systems for the collection, aggregation and analysis of quantitative data for determination of these GHG emissions for the stated period and boundaries.

Statement of independence, impartiality and competence

The Bureau Veritas Group is an independent professional services company that specializes in Quality, Health, Safety, Social and Environmental management with over 180 years history in providing independent assurance services.

No member of the verification team has a business relationship with Broadcom, its Directors or Managers beyond that required of this assignment. We conducted this verification independently and to our knowledge there has been no conflict of interest.

The Bureau Veritas Group has implemented a Code of Ethics across the business to maintain high ethical standards among staff in their day-to-day business activities.

The verification team has extensive experience in conducting assurance over environmental, social, ethical and health and safety information, systems and processes, has over 20 years combined experience in this field and an excellent understanding of The Bureau Veritas Group standard methodology for the verification of greenhouse gas emissions data.

The determination of the GHG emissions is the sole responsibility of Broadcom. BVNA’s sole responsibility was to provide independent verification on the accuracy of the GHG emissions reported, and on the underlying systems and processes used to collect, analyze and review the information.

Boundaries of the reporting company GHG emissions covered by the verification:

- Operational Control
- Worldwide

Emissions data verified:

- **Scope 3**: 31,022 metric tons of CO₂e (Category 6, Business travel – air only)

Period covered by GHG emissions verification:

- January 1, 2013 to December 31, 2013

GHG Reporting Protocols against which verification was conducted:

- U.S. Environmental Protection Agency Climate Leaders Core Module Guidance, EPA430-R-08-006, May 2008

GHG Verification Protocols used to conduct the verification:

- ISO 14064-3: Greenhouse gases -- Part 3: Specification with guidance for the validation and verification of greenhouse gas assertions

Level of Assurance and Qualifications:

- Limited
- Qualifications: The emissions factor used for determination of Scope 3 emissions associated with business travel has a relatively high degree of uncertainty since this is a general factor for flight "distance not known."

GHG Verification Methodology:

- Interviews with relevant personnel of Broadcom and their consultant;
- Review of documentary evidence produced by Broadcom and their consultant;
- Review of Broadcom data and information systems and methodology for collection, aggregation, analysis and review of information used to determine GHG emissions; and
- Review of data used by Broadcom to determine GHG emissions.
Assurance Opinion:

Based on the process and procedures conducted, there is no evidence that the Scope 3 GHG emissions assertion shown above:

- has not been prepared in accordance with the U.S. Environmental Protection Agency Climate Leaders Core Module Guidance.
